## Overview

Journaling App for private and publicly journaling and sharing car work:

Beneficial to:

- car buyer trying to get a well maintained vehicle
- car seller trying to make maximum profit on cars by providing customers detailed vehicle history

Useful for:

- owners who want to log their work
- owners seeking guides to do a project

## Getting Started

To use our app you will need an @sign. The onboarding page will prompt you how to create one if you don't already have one.

After creating an account you will be guided to the homepage. For any issues with account creation please see [the atsign company support page](#)

Created with Dr.Explain

**Unregistered version**

## Onboarding Page

Click here to log into an account with the atsign company or [log out and change accounts](#).

\*Logout functionality not yet implemented, for now remove @sign from device manually to reset

## Home Page

Create a profile picture and see the list of articles you have written.

Click any article to view it

Toggle the app Bar to see page navigation options for:

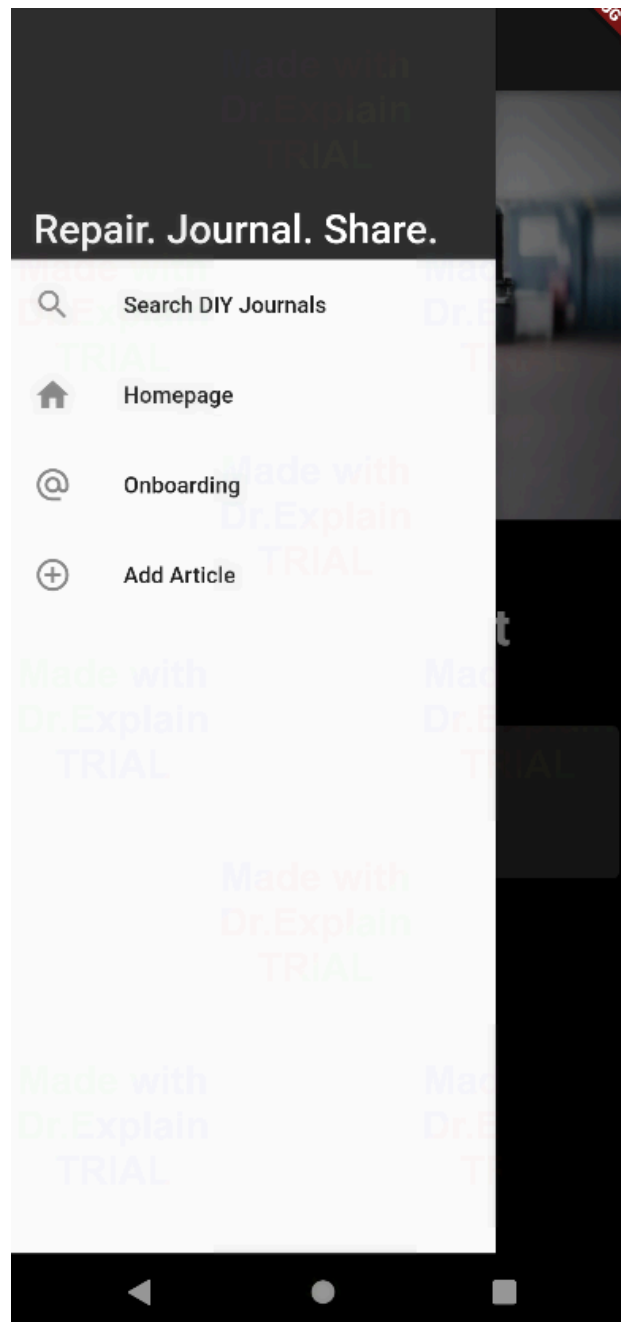

- search
- onboarding
- create-article
- (home)

## AppBar

Navigate the various pages:

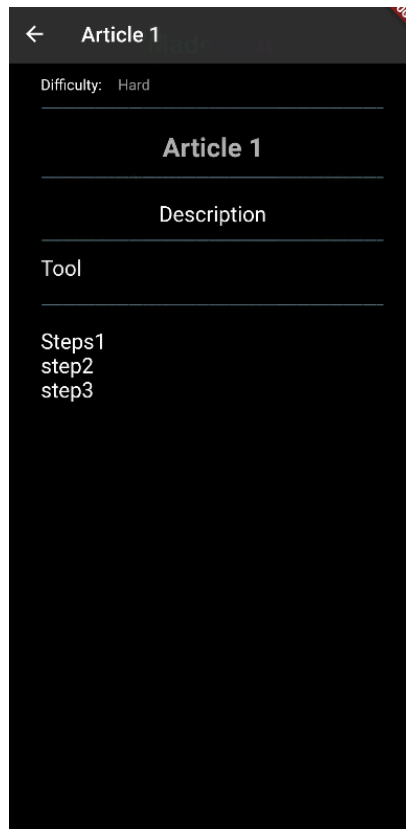

- search
- onboarding
- create-article
- home

## View Article

See your article in a readable display with photos and each category divided up in a minimalist view. Clicking an article from search or home page will take you to the view page.

## Search Page

Here you may search for articles both locally and from other users

Pipeline features:

tag searching, user searching, sort by rating

## Ordering & License

All development for this app is open source code available at:

<https://github.com/danielgoncalves25/diyapp>

On completion this app will be compatible with both android and ios devices as well as future plans for a webapp version.
